

GROW AUSTRALIAN NATIVE PLANTS

**Garden Guardians
of the Bay will save
the day - protecting
Geographe Bay for
all of us.**

Choose native plants which are suited to the local soil and climate. They use less water and nutrients, and if you choose the right plant for the right spot, are easy to grow and maintain.

Native plants will attract wildlife into your garden and provide valuable habitat. Try to select a range of species that will ensure year-long flowering to feed wildlife.

PROTECT OUR BAY

The fertilisers that we put on our gardens run off into waterways and groundwater. The health of Geographe Bay and local wildlife is at risk if this nutrient runoff increases.

GARDEN THIS WAY

Garden Guardians keep nutrients where they belong:

Grow native plants. Add clay to sandy soils. Apply soil wetter. Use mulch.

Become a

**GARDEN
GUARDIAN
OF THE BAY**

**and have a beautiful
garden that also takes
care of the environment.**
