

GARDEN GUARDIANS OF THE BAY

PROTECT OUR BAY - GARDEN THIS WAY
APPLY SOIL WETTER TWICE A YEAR

Garden Guardians
of the Bay will save
the day - protecting
Geographe Bay for
all of us.

PROTECT OUR BAY

The fertilisers that we put on our gardens run off into waterways and groundwater. The health of Geographe Bay and local wildlife is at risk if this nutrient runoff increases.

GARDEN THIS WAY

Garden Guardians keep nutrients where they belong:

Grow native plants. Add clay to sandy soils. Apply soil wetter. Use mulch.

APPLY SOIL WETTER TWICE A YEAR

Soil wetter improves the absorption of water into soil, reducing the surface tension of water and helping it to spread more evenly through the soil.

Soil wetter comes in both liquid and granular forms and is easy to apply. Activate it by watering in. Lawns and gardens will benefit from two or more applications of soil wetter during late spring and summer.

Become a

GARDEN GUARDIAN OF THE BAY

and have a beautiful garden that also takes care of the environment.
